< > Rows 1 - 19 of 19

Paso 5: Seleccione su **Fecha de vigencia (Effective Date)** y el **Nuevo país de residencia (New Country of Residence)**. Haga clic en **“Submit”**.

Estimate

Generate estimates to know your future benefit option(s) and estimated entitlement amount(s)

On this page, you can generate a benefit estimate based on the information currently recorded in the Fund's systems, whether you are an active participant or a retiree/beneficiary.

Estimates generated in Member Self-Service (MSS) are indicative only and are neither audited nor signed. Once generated, the estimate will be available inside your MSS portal, under My Pension Self-Service > Generate an Estimate, OR under My Records > Official UNJSPF Documents.

For detailed information on benefit estimates, including how estimates are calculated, important limitations, deferred retirement estimates, and two-track estimates for retirees and beneficiaries, please visit the Benefit Estimates page in the For Clients section of the UNJSPF website: <https://www.unjspf.org/for-clients/benefit-estimates/>

* Indicates required

Requested For
TncRVD uCHC
